# Compliance Document Checklist

---

Assemble a compliance document pack buyers and auditors trust. Match the contents to your market and customers' requirements.

## Social and ethical compliance

- Valid social audit (BSCI / SMETA / WRAP)
- Audit findings and closed corrective actions
- Factory certifications relevant to market

## Product compliance

- Product test reports on bulk materials
- Chemical compliance (RSL/MRSL, REACH where applicable)
- Safety testing (childrenswear, where relevant)
- Labelling conformance (fibre, care, origin)

## Shipping and customs

- Commercial invoice and packing list
- Certificate of origin where required
- Correct HS classification
- Any market-specific certificates

---

*Educational buyer tool. Keep documents current — an expired audit implies coverage that does not exist.*
