Trim and Packaging Checklist

Small parts delay big orders. Use this to capture every trim and packaging component with its own minimum and lead time.

Trims and components

- Main label (woven or printed)
- Care label with correct symbols
- Size label
- Hangtags and price tickets
- Zippers, buttons, snaps, hardware
- Drawcords, elastic, tapes
- Thread colour and type

Packaging

- Polybag (recycled / recyclable where possible)
- Carton specification and marking
- Inner packing and folding standard
- Barcode / label placement

For each item, confirm

- 01 Minimum order quantity
- 02 Lead time
- 03 Whether it exceeds garment quantity
- 04 Source in parallel with sampling

Educational buyer tool. Source custom trims in parallel with sampling so a small part never holds up a large order.
